**Passion for
Web Design**

It all started with web designer in 2013. But pretty soon, we were growing faster than ever, and current software couldn't keep up. Our solution? We created an in-house app to help us grow. Today, we call it Refresh CMS, and our web designers and customers use it around the world to grow their businesses.

OUR MISSION

Our mission statement is to provide the highest level of customer support and website design at a price point that any business or organization can afford.

OUR VISION

To offer professional website design at a revolutionary price, while leading the way for the best customer service in the industry.

REFRESH MARKETING GREW OUT OF A NEED TO SUPPORT SMALL BUSINESSES AND NONPROFITS

It is far too common to see professional website development firms charging tens of thousand of dollars for their services.

"Honestly, it makes us sick when we see small businesses and nonprofits being taken advantage of like this. We don't want to make a fortune off of our customers, we want our customers to make a fortune off of us."

We provide your company with a professional platform where your business or nonprofit can have growth and reach. Other website design firms would charge tens of thousands of dollars for this quality of service, Refresh Marketing offers all of these services at one low monthly cost with ZERO setup fees.

As a business owner,
you don't have enough time in the day!
That is why when it comes to your website,
we handle everything from design to day-to-day maintenance.

What will you do with your new found time?

NONPROFIT DISCOUNTS

We are proud to announce our partnership with nonprofits! This partnership is designed to help nonprofits succeed and be given website design services and marketing services at a price point that can fit most nonprofit's general budgets.

It is far too common to see Professional website development firms charging tens of thousand of dollars for their services.

"Nonprofits are being sold and up-charged Squarespace, Wix, and WordPress Template websites at \$5,000 or more per website when it costs design agencies and freelancers less than \$100 to "create." Honestly, it makes us sick when we see nonprofits being taken advantage of in such a gross way.

We provide your organization with a professional platform where your nonprofit can have growth and reach. Other website design firms would charge tens of thousands of dollars for this quality of service, Refresh Marketing offers all of these services at one low monthly cost with ZERO setup fees and NO contracts.

All of our nonprofit clients receive a 25% discount on all products we offer. Ask us today about how you can start saving!
